There are two ways of connecting to your server: first is by using a computer directly connected to the internet through LAN (Local Area Network) port, and second is by using a mobile phone, tablet or any other device connected to the internet through WiFi or Data connection. If you choose the second option, please make sure that the username and password you have created for the account on Minecraft Bedrock Server are valid and correct. For best results, you should use a password that will not be easy for hackers to guess and change frequently. Also, please watch out for suspicious emails that inform you about your account and try to trick you into entering your username and password.",

In April 2021, it was revealed that "Rust" had already been banned by Valve Corporation from distribution on its Steam platform for violating the company's end user license agreement. The ban was later lifted under appeal but made clear that Valve intended to introduce further restrictions based upon future violations of its terms of service.",

Always back up your world:Before installing a mod it is always a good idea to save your world before you do anything else. This way, if something does not work out and you need to uninstall the mod or require a clean save, you will not lose everything. This is very important and we cannot stress enough how important this step is for most players! Install it correctly:Installing mods is different for each of them because they all have different requirements and rules about what files they will change in Minecraft. For example, some mods will just replace certain files while others will replace a lot more. Make sure to read the modâ€™s description and the developerâ€™s website and follow them accordingly. If you trust the modâ€™s description or its developer in general then it is probably safe to install it. If you are unsure at all, it would be a good idea to examine each of your files before installing so that you can see if anything has been altered by this mod.",

Minecraft mods can be downloaded from the internet, but the most common mods are available on many websites that allow you to download. There are a few Minecraft players who download mods for free, but most of these people are looking to get a scam or something in order to cheat their way to owning Minecraft. It is wise not to download any mods that you come across on forums, because you could end up with a virus or other malware on your computer. The best way to find out whether or not a mod is safe would be to check the creator's website. I have put together a list of some of the most popular sites that host mods for Minecraft. Gameplay",
